Dear Hiring Team,

I am writing to express my interest in the Programmes and Partnership Administrator position at the Asian Species Action Partnership (ASAP). With a background in Information Technology and several years of hands-on experience in non-profit organizations, I am eager to contribute my skills in programme coordination, stakeholder engagement, and administration to support impactful conservation initiatives across Southeast Asia.

Over the past years, I have actively contributed to community-driven and non-profit programmes in Indonesia. As a Public Relations and Programme Coordinator at Baitulmaal Munzalan Indonesia, I managed engagement with student and youth communities, supported programme administration, and collaborated with various partners to deliver social and educational initiatives. In addition, through my involvement with Social Care DIY, I worked on community empowerment programmes focused on improving access to education and economic support for underserved communities, including orphanages. These experiences have strengthened my ability to coordinate programmes, maintain structured documentation, and communicate effectively with diverse stakeholders.

Beyond administrative and coordination roles, I have also been involved in environmental initiatives, including organizing coastal conservation activities such as planting 1,000 trees and conducting beach clean-up campaigns in the Yogyakarta region. These experiences have deepened my awareness of environmental challenges and strengthened my commitment to contributing to long-term conservation impact.

I am particularly drawn to ASAP's mission to protect critically endangered species through collaboration and capacity building. My motivation in applying for this role is rooted in a strong desire to create meaningful impact for conservation efforts. I am committed to supporting effective programme operations, maintaining clear and consistent communication across teams and partners, and ensuring that all administrative processes run smoothly—even in a remote working environment. I take pride in delivering high-quality work and approaching every responsibility with dedication, accountability, and attention to detail.

With my combined experience in administration, coordination, and data-oriented thinking from my IT background, I believe I can contribute effectively to ASAP's programmes and partnerships. I am excited about the opportunity to be part of a values-driven team working towards tangible conservation outcomes in Southeast Asia.

Thank you for considering my application. I have attached my resume for your review, and I would welcome the opportunity to further discuss how I can contribute to ASAP.

Sincerely,
Azam Azri Ahmad
